

# OMEGA ANIMAL STALL

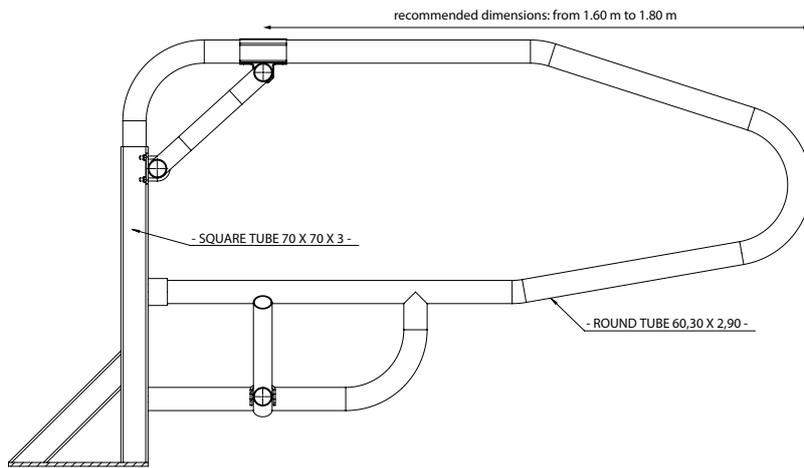

**This ergonomic concept** respects the cow's freedom of movement. **Precise and functional** for the animal and the cattle breeder for daily use. Engineered in galvanized steel, the Omega stall has been conceived to last. This cow stall is **easy to install** and **fast to adjust**. Try it, and you will love it! Your cattle too!

## Why choose Omega Animal Stall?

- 1.** Save time while servicing (thanks to the precision settings)
- 2.** Quiet animals for better production
- 3.** Optimize space: cattle can ruminate in the stall
- 4.** Move and monitor your animals in comfort and safety
- 5.** All-in-one product (side, knee-bars and mouting bolts included)

The stall is delivered ready-to-install: side, knee-bars and bolts included**

### Régis Siruguet — Gaec de la Tour (21)

« Nicolas was trimming our cows. I trusted him one hundred percent when came the moment to choose a stall for our new 150 head stable.

### Franck Blanc — Gaec du Menhir (69)

« 98% acceptance rate from my herd on day 2. For me, it's an immediate success: no more back pain! »

**Omega Animal** is a french company, created by Nicolas Fournier, a hoof trimmer. After fifteen years taking care of cows, he decided to create his own stall in order to support cattle breeders and their animals in their daily tasks.
